3.2.1 Institution has created an ecosystem for innovations, Indian Knowledge System (IKS), including awareness about IPR, establishment of IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident

TGSWRD and PG College Sangareddy motivates the students has always been a constant support to create various activities and clubs which created an atmosphere of ecosystem for innovations to create and transfer the knowledge. A few of these are as follows:

- 1. Savitri Bhai Phule Women Empowering Cooperative Stores (SBPWECS):** SBPWECS is one of the most innovative ideas to encourage business skills among the commerce students started on 8 February 2020. The stores started with a corpus fund of Rs. One Lakh -The second-year commerce students are given in charge to maintain the stores and store records. With the help of store in charge faculty members, the students visited the outside shops to bring the necessity products and put them for sale at a profit within the college. The maintenance of stores would give an opportunity to enhance both learn and inculcate selling skills.

Savitri Bhai Phule Women Empowerment

2.Financial Literacy Club: The main aim of this club is to bring financial awareness and exposure on financial system in India among the students. The lectures include some of the themes related to financial planning Indian banking system taxation policies and investment schemes. To encourage

and develop skills for financial and investment activities including trading in securities, a few lectures also have been organized.

Financial Literacy Club

3.Commerce Club: Commerce Club aims to encourage students to prepare for commerce fairs, models/specimens, projects and also help them to keep up-to-date with the current events of the world in the area of Commerce. It aims at bringing out the inherent talent of the students

4.Student Research Projects: Small Research projects are assigned to the students to find out the various resources, which have to be searched for solving the research problem. Students work on Data collection and understand the Basics of Research Methodology. A few students have presented book reviews on few journal articles. To allow exposure of students to virtual technology, students are encouraged to prepare 3-minute video's which are uploaded in College You tube channel.

5. Super Student: It is a one-of-its kind competition where students' ability to communicate and teach a particular topic is tested. Students are asked to choose a topic of their choice and will be judged on the basis of their selection of topic, presentation, body language, creativity, conclusion and overall presentation.

6. Dream a Dream (DaD): Dad is a non-profit organisation empowers young people from vulnerable backgrounds to overcome adversity and flourish in a fast changing world using a creative life skills approach, from 28.10.2020 to 15-01-2021.

7. Village Learning Centers (VLCs): A great initiative VLCs stood on a global stage and made a proud moment to our institution. World Bank and OECD have published our VLC works on their official websites. During the COVID pandemic, to provide education for the deprived and underprivileged students in the neighbouring places around their homes, our students taught the school students and intermediate college students. The students assumed the role of teachers and showed great enthusiasm. This programme helped the students not only in learning teaching skills but also made them socially responsible towards the country

8. Departmental Forums: As part of capacity building program to exchange ideas among the faculty members for the students' progress, centralized department forums are being organized by the RDCs. The department forums are presented on the current concepts and practices of various subjects that would provide add-on knowledge to the faculty members for imparting state-of-art as well as practical education to the students.

9. E-Learning Tools: Ever since the pandemic began, online has been the sole lifeline for students. Many students have been compelled to resort to online lectures. NEP 2020 also brought in fresh ways to introduce quality education to students across the country. In this context, students were introduced to new apps and technologies by which they could easily listen to classes with a single click. A few such tools include ZOOM, Microsoft Teams, YouTube, and Whats App. The Departments also extended its support to teaching students through online modes such as T-SAT and Doordarshan, Yadagiri Channels for unique pedagogical approach. Today, English is the language of the world and a basic need. Together as a team the Department of English strives to upgrade and upskill the knowledge of students through experimental teaching and innovative learning methodologies.

10. Business Ideation Festival: As part of Business Ideation festival, out of the many business ideas received, 15 best ideas have been selected.
