7.1.2 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste Solid waste management Liquid waste management.

Solid waste management

Liquid waste management

1. Solid Waste Management

1. Classrooms and laboratories have dust bins. Dry and wet waste are segregated separately.
2. Local municipality collects the garbage from the college periodically.
3. Vending machine along with an incinerator is used to disintegrate sanitary napkins.

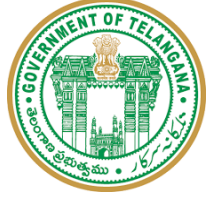

2. Liquid Waste Management

1. The waste water generated during purification of water by RO is used for saplings in garden and cleaning mess vessels.
2. The water harvesting pits are so planned that every single rain drop of water goes into them.
3. The college has a proper drainage system near drinking water facility.
